## CPCU in Good Standing

As leaders in their field, CPCUs must be at the forefront of emerging trends. The CPCU in Good Standing program keeps CPCUs up-to-date while showcasing their commitment to lifelong learning.

## How the CPCU Society Can Help

CPCUs who are Society members receive amazing benefits that support their participation in the CPCU in Good Standing Program. This includes:

Waiver of the \$189 CPCU in Good Standing reporting fee  
Monthly webinars and other educational sessions automatically reported for credit  
Access to local chapter activities that qualify for credit - many of which are reported on behalf of participants.  
Participation in the Mentor Match program - limited to 6 credit hours per reporting cycle.

### Earn 24 hours in 24 months

Earn 24 hours of credits every two years through a wide variety of qualifying activities including complimentary member webinars, attending sessions at Society events and taking your free quarterly course from the Institutes

### Log your Credits

Credits earned through the Institutes, CEU and the CPCU Society are automatically reported in the CE for CPCU Reporting Tool. Additional activities can be manually entered. One hour of content = one credit hour.

### Complete the Reporting Process

Don't miss this important step! Even if credits are auto reported, you must log into the Reporting Tool to verify all reported activities. Your reporting process is not complete until you confirm. The \$189 Reporting fee is waived for CPCU Society members
